

**Ecobee Smart Doorbell Camera: Advanced Security for Your Home:** The Ecobee Smart Doorbell Camera is a feature-rich addition to smart home security systems, combining convenience and advanced technology. This smart camera provides crystal-clear video, ensuring you can see visitors at your door in high definition, day or night, thanks to its night vision capability. It integrates seamlessly with other Ecobee devices and popular smart home ecosystems, offering motion detection, two-way audio, and instant notifications to your smartphone. The camera's AI-powered features help differentiate between people, packages, and other movements, minimizing false alerts. With its sleek design and easy installation, the Ecobee Smart Doorbell Camera enhances your home's security and adds a layer of smart functionality to your entryway.

**Ecobee Smart Thermostat: Energy-Efficient Comfort for Your Home:** The Ecobee Smart Thermostat is a cutting-edge device designed to optimize your home's heating and cooling system while offering energy-saving benefits. Equipped with advanced sensors, it monitors occupancy and adjusts the temperature accordingly, ensuring comfort when you're home and conserving energy when you're away. It also integrates with popular smart home platforms, allowing for voice control via devices like Alexa, Siri, or Google Assistant. The thermostat learns your preferences over time and can be controlled remotely through the Ecobee app, giving you full control from anywhere. With features like scheduling, weather adaptability, and eco-friendly energy reports, the Ecobee Smart Thermostat not only enhances your home's comfort but also helps reduce energy consumption and lower utility bills.

**Alfred DB2S Bluetooth Smart Lock with Key: Modern Security and Convenience:** The Alfred DB2S Bluetooth Smart Lock with Key offers a sleek and secure solution for modern home access. Combining convenience and versatility, this smart lock allows users to unlock their doors using Bluetooth technology via a smartphone, while still providing the option of a traditional key for added flexibility. It features a touch-sensitive keypad for keyless entry, which can be customized with unique codes for family members or guests. The Alfred DB2S integrates with smart home systems and can be controlled remotely, giving you real-time access to lock and unlock your door from anywhere. Its durable design, combined with tamper-resistant features, ensures top-notch security, making it an ideal choice for those seeking to upgrade their home's entry system.

**N** For existing customers, to make changes to your existing bulk services, including move related inquiries **Press 1**

You are receiving a special rate for this service under a bulk arrangement between Rogers and your building. If the bulk agreement ends, this service will be cancelled. At this time, you may choose to subscribe to services with Rogers at the current rates, subject to any applicable rate increases. Discount applies to monthly service fee for core services only. Additional optional add-ons and pay-per-use rates are not included with the offer. 1 Speeds may vary with internet traffic, server gateway/ router, computer (quality, location in home, software and applications installed, home wiring, home network or other factors). An Ethernet/wired connection and at least one additional wired or wireless connection are required to reach maximum download speeds of up to 1 Gbps for Ignite Internet Gigabit.
